Subject: Re: Case number 178702702

Dear Judge;

I am replying to a summons-complaint I received on 1-4-17 from a process server informing me that I have had a small claims court claim filed against my wife and I for Breach of Contract. I am requesting an extension to the court date if you would so consider. My wife was just diagnosed at the age of 38 with two defective heart valves and we are in the process of trying to find a surgeon after meeting with her doctors at the Cleveland Clinic last week as well as stabilizing her on the medication that they placed her on. The case originated from my complaint to the Utah Division of Consumer Protection after we sent the plaintiff \$375.00 as a deposit to restore a classic car wiring harness of ours as well as the harness. The plaintiff not only failed to repair the harness but took the money. Something that public records indicates he has done several times before. The Utah Division of Consumer Protection found 5 counts-violations totaling \$12500 in fines that they are pursuing. The plaintiff became enraged upon our filing of the complaint. In retaliation, the plaintiff sent 60 + emails to my family calling me everything and every cuss word in the world. He has called my wife "purchased" as she was originally born in the Philippines; threatened to camp out on my parents door step, threatened to build a johndesautels.com website after he claims he purchased my domain name disparaging me; left hostile comments on my Facebook business page; threatened me with a gun, and threatened to end my life. I have all of these emails. I also have the Utah Division of Consumer Protection summary of their complaint. He has even threatened the head investigator of their division. Additionally, my wife was never party to the so called contract, never party to any email, any verbal communication or negotiation in any manner shape form or capacity. I am 100% committed to coming before your court; explaining my case, giving you evidence in my defense and standing before your ruling. However, I would ask that you grant me sufficient time to get caught up with all that has occurred with my wife and if possible grant us a 60 day extension. She is in no physical condition to emotionally deal with Mr. Flint. I am able to come by myself on the 31st but would like more time to consult with an attorney. I might add that Mr. Flint hired a process server to pretend he has a real estate client of ours and fake an entire property search criteria in order to drag us across town. I also have all of her medical documentation. Please let me know what documentation and or emails I can provide you and I will immediately upload them today.
