Judge McCullagh

My name is Darren Flint, I am the owner of Automotive Electrical Online LLC. I have a pending case in your court and the Defendant is dodging my process server. He has filed a case with the Utah Department of Commerce Consumer Protection division. I do not want to risk my case so I will not divulge too much information here but I have an issue that requires your attention. For reference it is DCP Case No. 95605

There seems to be a lawless attitude in the DoC CP department. We will be filing legal action and criminal action against them and specifically Adam Watson at DoC CP, in my opinion he has committed criminal malfeasance. I have provided Adam Watson with evidence of 15 counts of perjury that the defendant has committed perjury in his complaint to the DoC CP, Adan Watson did not forward this to the AGs office. I have informed him that there is a pending case in your court, he ignored it. On Friday night, he emailed us an Administrative Citation in this matter. He also ignored my LLC and named me personally. I do believe he is a rogue agent and I question his integrity.

I am just a little guy with a company trying to make a living. I do not have a lot of money for legal counsel. It does not seem right to me that Adam Watson should have the authority to ignore the judicial system. It seems to me he is making a mockery of your court. I believe there is collusion between Adam Watson and the defendant in this case. In all fairness and due respect of the court, I don't think Adam Watson should have the ability to do this until after, your court has had a chance to issue a ruling.
